Curriculum Vitae

Jörgen Winqvist, Repens AB

Year of birth: 1965
Sex: male
Address: Lantvägen 10, Löddeköpinge, Sweden
Phone, mobile: +46 705 470982
E-mail: jorgen@repens.se

Main focus

More than 35 years working with IT for several big and leading companies in Sweden. I have a very in depth knowledge of Unix/Linux OS, tools and databases. I am experienced in IT infrastructure architecture and a certified IT-Architect. Good interpersonal communication skills.

Reference assignments

Telia Company 2019-2021	Migrating and upgrading Sybase/SAP servers and systems. Also supporting in questions relating to ASE. Working with IT Operations for OSIX, Jupter and Kalix. Daily operational tasks but mainly focusing on mediation and exports. Buzzwords: Sybase / SAP Adaptive Server Enterprise (ASE), Osix, Telecom, bash, Linux, Osix, Kalix, Jupiter
Telia Company 2017-2019	**Splunk (**Security Information and Event Management) On-boarding Splunk agents and configuring Splunk for OS, application and database logs. Facilitating for IT Service Managers to choose relevant Use Cases for their systems. Creating use cases, dashboards, report and alerts. Developing scripts for maintainability. Buzzwords: Splunk, bash, perl, SIEM, Security
Telia Company 2016-2017	**Cyberark (**Enterprise Account and Password Management) Rolling out Cyberarck to a big part of the server infrastructure. Troubleshooting OS, network, routing, security issues and more. Scripting automated routines towards Cyberarks REST API to on-board servers effectively. Buzzwords: Cyberark, Python, REST, bash, Linux, Unix
TeliaSonera March 2014-2016	**Daisy program** Migrating systems to virtual servers, reducing number of data center and decommissioning legacy hardware. Working as technical expert in database technology concerning Postgresql, MySQL and OS technology Unix/Linux. Buzzwords: Databases, DBA, architecture, bash, MySql, Postgresql, Unix, Linux, RedHat
TeliaSonera Jan 2011 – Jan 2015	**Database technology group** **Sybase migration** Migrating and upgrading approximately 20 Sybase servers from HP-UX to Linux. The migrations were highly time critical and a big effort were made to fit within the service windows. Mainly by scripting the migration and using parallelism. Some of the servers were migrated using Sybase replication server. **Private cloud**

Designing and developing a prototype for a *Private Database Cloud* for creating new instances and schema in Oracle, MySQL, MSSQL and Postgresql. The application was developed in the YII framework with MySQL. Although being a prototype, the application called ODPC went into production.

Middleware migration
```
Migrating a document system to a new Linux platform.

Buzzwords: Databases, DBA, architecture, design, bash,
Yii, php, MySql, Sybase ASE 12.54, Sybase ASE 15.5.
Sybase replication server, migration, upgrade, Cloud.
```

TeliaSonera Aug 2010 – Jan 2011	**IT-Architect, Database technology group** Being the representative for the database technology group in various projects. Helping the application projects choose a suitable platform regarding product, capacity and availability. I was also member of the Design-point during this period, representing databases and Linux.

Reviewing and calculation availability numbers for the Oracle platform. Assessing choices in technology and member of a team for planning and designing a new platform with higher availability.

```
Buzzwords: Databases, architecture, design, high
availability
```

IKEA IT January 2008-Sept 2009	**IT Architect infrastructure, Consultant**

The overall task is to secure that the architecture design of solutions meet the non functional requirements and support an efficient service level fulfillment. Support product responsible and solution architects preferably using the standard platforms and infrastructure.

The one major task was creating generic architecture models and bringing them into operations.

```
Buzzwords: architecture, infrastructure, AIX, linux,
RedHat, VMWare, Webmethods, BMC, ITSM, ITIL, Visio.
```

TeliaSonera May 1999 – October 2009	**IT Expert, Consultant**

My main assignment during this very long period was to design, develop and maintain a billing mediation system for Telias different internet platforms. The system is also used by Abuse and Special Investigations. TND is deployed on a clustered RedHat Linux with a MySQL database server. The system handles several billions of records yearly. In the beginning of the project I worked with the MySQL CTO to ensure capacity. The project also contributed financially to improve the MySQL database server.

In parallel during this period I also worked in several other projects, for example;

OPIP/SKB was one of Telias ADSL platforms for wholesale. I worked mainly with the Unix platform and parts concerning radius accounting and authorization.

MUSE, a big MRTG-like system that collects data with SNMP saves it in MySQL and presents statistics and graphs. I mostly worked with improvements. One task among many was to create a visual Load map on the backbone, peering and the international traffic.

DUST Dial-Up SMTP. Maintaining, supporting and migrating to newer hardware.

```
Buzzwords: Linux ,RedHat, system administration, MySQL,
Perl, shell script (Bourne/Posix/Bash), php, HTML,
Apache, Ipred, dhcp, radius, radiator, SNMP
```

Telia IT Service January 1998 – July 1999	**Sybase and Unix expert, Consultant** Sybase DBA in Kalmar and Unix system administrator in Haninge. Buzzwords:Sybase, HP Service Guard
Hewlett Packard 1999 – 2001	**Teacher** During this period on several week long occasions I was teaching Unix and shell script programming mainly at Hewlett-Packard premises in Stockholm. `Buzzwords: Unix, HP-UX, Advanced Unix Programming,shell script, Service Guard.`
VOLVO IT 1997 – 1998	**Unix expert , Consultant** Working on SOE 2.0, Standard Operating Environment for HP-UX, AIX and Solaris. Major focus was on High Availability throughout these platforms and creating common routines and standards. Buzzwords:HP-UX, AIX, Solaris, Service Guard, HACMP, shell script
Telia IT Service 1997	**Sybase DBA, Consultant** Creating routines mainly in shellscripts and perl for managing Telias very large Sybase installation on HP. I also developed a web based performance monitor tool for Sybase database servers. `Buzzwords: Sybase, monitoring, perl, html, shell script`
Luftfartsverket 1996-1997	**Unix Expert, Consultant** System administration and database administration. `Buzzwords: HP-UX, Oracle`
VOLVO IT 1995 – 1996	**Unix Expert, Consultant** Some programming (C) to port a legacy RPG application to AIX. Team member in SOE/Unix - Standard Operating Environment for Unix group. Creating standards, uniform install routines and unix shell programming for SOE. `Buzzwords: HP-UX, AIX, C`
Telia IT Service 1994-1995	**Sybase Expert, Consultant** Creating routines mainly in shellscripts and perl for managing Telias very

large Sybase installation on HP.

Buzzwords: Sybase, monitoring, perl, html, shell script

Commentor Consulting 1994-2008	**Consultant, Employee** Working as consultant at the customers premises almost 100%. In parallel I was the infrastructure architect at Commentor. Internally but also as consultant when new customers to Commentor needed advise regarding servers, network and other infrastructure. Buzzwords: Infrastructure, HP, ACC, routin, WAN, sendmail, pop, imap, bind, dns, linux.
Commentor 1986-1994	**Developer, Team leader, Key Account manager, Employee** I started as a C programmer and during these years I worked with several of the most profitable mail order Companies in Scandinavia. Later during this period I was manager for some of Commentors largest customers and a group of programmers. This work included lots of dialogue with customers regarding their business as well as designing and developing the software to fulfill their business needs. I was involved with almost all of Commentors new customers during this period, creating the infrastructure architecture. Buzzwords: OLF, Mail order, C , C++, Sybase, HP-UX, Unix.

Expertise summary

Extensive
- Linux
- HP-UX
- C
- Perl
- PHP
- HTML
- SQL
- TCP/IP
- MySQL
- Sybase
- shell script (Bourne, Korn, Posix, Bash)
- Yii

Moderate
- Solaris
- Windows
- C++
- Bind
- Sendmail
- Oracle
- AIX
-

Professional experience

| April 2008 – | Company: | **Repens AB**, Löddeköpinge, Sweden |
| | Position: | Consultant, Self employed |

| April 1994 –
March 2008 | Company:
Position: | **Commentor AB**, Lund, Sweden
Consultant |
| October 1986 –
April 1994 | Company:
Position: | **Commentor AB**, Lund, Sweden
Developer, Teamleader, Key Account Manager |

Academic background

| 1981-1985 | **Hässleholms Tekniska Skola**
Electronic engineering |

Additional trainings

| 2009 | ITIL Foundation version 3 Certified |
| 2010 | Certified IT-Architect , Dataföreningen. |
